Professional Summary

Hey there! I'm a product-driven Software Engineer who loves turning raw ideas into real MVPs - fast. I build clean, responsive interfaces, design scalable systems, and ship end-to-end experiences that actually get used. I leverage AI to move quicker, iterate smarter, and improve quality across planning, build, and launch. My focus is simple: build useful products, learn aggressively, and keep leveling up.

My Portfolio

Skill Stack

Frontend

Html/CSS • JavaScript • Reactjs • Nextjs • React Native

Backend

PHP, Next.js (API Routes), Serverless [Firebase, Supabase, Appwrite]

Database

MongoDB, Mysql, Firebase, Appwrite

Work Experience

Undisturb

Mobile developer

- I collaborated with ADTC Technologies to develop an AI powered emotional wellness app called Undisturb
- Helped configure the various cloud environments in different stages of Undisturb on Expo
- Developed a native and full-blown app with features i.e Push Notifications, Authentication, API Integration, Analytics, Caching for better performance…
- Actively contributed ideas, features and plans; all geared toward making Undisturb app an impact driven solution with market value
- I helped setup Undisturb monetization model (Subscription) on google play console and apple developer platform

Jemash Resources limited

Web Developer

- Developed a dynamic website using HTML, CSS, JavaScript, and PHP, delivering a seamless user experience.
- Implemented a solution for advertisement management and streamlined client-visitor interactions.
- Introduced resource-efficient measures to prevent contact spamming and automate storage cleanup, reducing maintenance efforts.

Fast Recruiters Consulting

Web Developer

- Building a tailored web application using HTML, CSS, JavaScript, and React (project on hold)
- Offering a One-In-All solution to web based need for Fast Recruiters
- I'm building a client-facing platform to professionally represent the company, highlight its services, and support business growth

Education

NIIT College (Ota) | May 2024 – Till date

- Advanced Certificate in Full Stack Software Developer.
- Honors Diploma in Full Stack Software Developer.
